

PREMIUM PLAN

Build your own business in 2 months

A serious digital business - e-commerce, SaaS, 1:1 mentorship and the highest profit share.

ENROLMENT FEE

Rs. 1,50,000

YOU KEEP

70%

EARNING POTENTIAL / MO

**Rs. 40,000 - Rs.
3,00,000+/mo**

Why this matters right now

The job market has tightened - hiring freezes, layoffs and hundreds of applicants per opening. A degree alone is no longer enough. The winners are the people who can generate their own income, regardless of who is hiring.

- Stop depending on being hired - you generate your own income.
- Own a registered business, not just a job.
- Earn while everyone else waits in the queue.
- Build rare, in-demand skills: web, marketing, AI and e-commerce.
- Recession-resilient income - SMEs still need digital services.
- A head start that survives the hiring cycle.

The honest truth: this is not a guaranteed-income scheme. It is a real business you build - we give you the skills, tools and the work to do it.

Inside the Premium Plan

Enrolment fee (one-time)	Rs. 1,50,000
Training	2-month core + 1:1 mentorship
MSME registration	Included
Website built for you	Full custom + e-commerce + SaaS

Social media setup	All + managed content calendar
Work leads routed / month	15 + priority routing
Profit split - you keep	70%
CloudSoft retains	30%
Support duration	12 months
Earning potential (illustrative)	Rs. 40,000 - Rs. 3,00,000+/mo

Best suited for

Those ready to run a serious digital business - premium e-commerce and SaaS projects, 1:1 mentorship, priority leads, a full year of support and the highest profit share in the program.

Your website tier

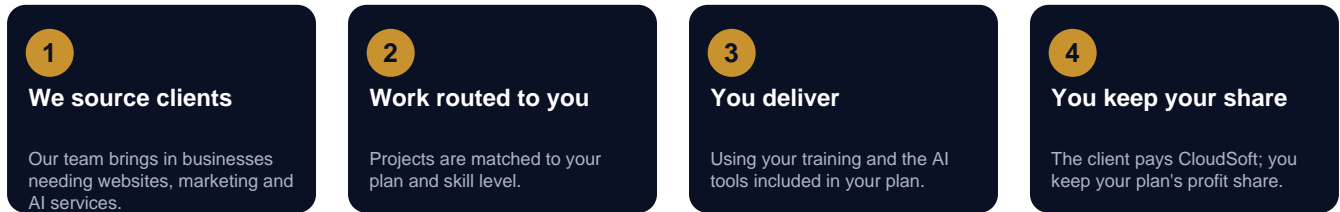

A fully custom website plus e-commerce and SaaS capability - the foundation for high-ticket client work and your own digital products.

Training curriculum

- Everything in Growth, PLUS:
- 1:1 mentorship with senior practitioners
- Building and selling e-commerce stores
- SaaS fundamentals and reselling
- High-ticket client acquisition and proposals
- Managed content calendar across all platforms
- Priority access to the highest-value projects

How you earn - the profit-sharing model

On the Premium plan you keep 70% of each project's value and CloudSoft retains 30%. Based on the leads routed at this tier and the work you complete, an illustrative monthly earning range is Rs. 40,000 - Rs. 3,00,000+/mo - effort-based and not guaranteed.

The best split we offer: you keep 70% - the highest share in the program - with priority access to the largest e-commerce and SaaS projects.

Your realistic path to first income

- Week 1** Onboard, set up your tools and payments, and receive your first routed lead.
- Weeks 2-8** Train while delivering early projects, invoicing through your MSME-registered business.
- Month 2+** A steady flow of routed work, plus clients you source yourself.
- Month 3+** Add recurring clients - maintenance and marketing retainers - for predictable monthly income.

All earning figures are illustrative potential outcomes based on participant effort, skill, and market conditions and are not guaranteed. The CloudSoft Entrepreneurship Program is a skill-development and business-enablement offering. The enrolment fee covers training, tools, MSME registration support, website development, and access to work opportunities through our profit-sharing model. Actual income depends entirely on the work each participant completes and delivers. This is not an offer of employment, a guaranteed-income arrangement, or an investment scheme, and no income is earned through recruiting other participants. Full enrolment and profit-sharing agreements are provided before sign-up.

Frequently asked questions

Is income guaranteed?

No. All earning figures are illustrative potential outcomes based on your effort, skill and market conditions - not guaranteed. Your enrolment fee buys training, tools, MSME registration support and access to work opportunities, not a guaranteed income.

Can I really start earning from day one?

You can start working and begin invoicing through your registered business from day one as leads are routed to you. What you actually earn depends entirely on the work you complete and deliver.

Do I need prior experience?

No. The 2-month, mentor-led training starts from fundamentals and takes you through websites, marketing, AI tools and client delivery. Beginners are welcome.

Will my business be legally registered?

Yes. MSME registration support is included in every plan, so you operate as a properly registered business and invoice clients legitimately.

What is the refund policy?

Full enrolment and profit-sharing agreements, including the refund terms, are provided for you to review before you sign up. Please review them with our team before enrolling.
